PLEASE NOTE

- The estimate of hospital charges includes the hospital room, ancillary charges such as X-ray, laboratory test, medication and consumables. Histology charges ARE EXCLUDED.
- The above cost estimate does not include any Doctors' professional fees.
- The estimates of each delivery bill size are generally for normal procedures. High usage and/or consumption of tests/procedures. Medical supplies, medications or other consumables beyond normal bounds; whether arising from complications or otherwise will result in a higher bill size than initially counselled. E.g. a prolonged stay in the delivery suite or a change in the patient's delivery method such as normal delivery to an emergency caesarean will result in a higher hospital bill size due to additional medical supplies, drugs and/or additional procedures being used/performed. The estimated bill sizes of the different type of deliveries are shown above.
- The Hospital does not guarantee that the actual charges payable on discharge would be that of the bill sizes estimated stated above. Actual charges will depend on the patient's final diagnoses, treatment plan and/or procedure(s) received and the actual length of stay.
- The maternity packages cover typical procedures and a standard set of items commonly utilized by doctors for the above procedures. Any additional medical supplies, medications, tests, procedures or mother care services that are deemed necessary for individual patients will be subject to additional charges.
- Hospital discharge time is 11.00am. Additional half day's room rate will be charged for discharges after 11.00am and a full day's rate will be levied for discharges after 6.00pm.
- 80th percentile refers to 80% of patients paying this amount or less and 20% pay more. This figure provides an estimate of the upper range of bill sizes.
- The admission deposit is based on the bill estimation shown above and parable on admission. An additional deposit will be required when the hospital charges exceed your first deposit.
- Hospital shall be entitled at its discretion to offset any credit balance under the relevant bill against any liability of the patient in respect of any other bill(s) before making a refund. For payment made via Visa & MasterCard, refunds will be credited back to the same card(s) up to the amount charged per card. Cheque refunds will be made only for Cash/NETS payments.
- The estimations are inclusive of GST.

DOCTOR’S PROFESSIONAL FEES

OBSTETRICS & GYNAECOLOGY DOCTOR FEE

Please check with your clinic for the Obstetrics & Gynaecology Doctor's Professional Fees.

ESTIMATED PAEDIATRICIAN'S FEE RANGE (GST INCLUSIVE)	
Newborn / Nursery Daily Attendance Fee	<div>\$187.25 to \$481.50 per day</div> <div>\$214.00 to \$267.50 per visit</div>
Neonatal Intensive Care /Special Care	<div>\$321.00 to \$749.00 per day</div> <div>\$214.00 to \$481.50 per visit</div>
Delivery Attendance in Labour Ward / OT	\$374.50 to \$588.50
Paediatrics - Daily Attendance Fee	<div>\$374.50 to \$749.00 per day</div> <div>\$160.50 to \$267.50 per visit</div>
After hours surcharge including weekends/PHs	\$321.00 to \$535.00
Procedure Fee (per procedure)	\$214.00 to \$428.00

Per day charge is calculated up to 12.00am on the day of admission. (I.e., from the time of admission until 12.00am, it is considered as one day charge. After 12.00am, it is considered as another day’s charge.)

ESTIMATED ANAESTHETIST'S FEE RANGE FOR EPIDURAL ANALGESIA & ELECTIVE CAESAREAN-SECTION (GST INCLUSIVE)	
Estimated Labour Epidural Procedural Fees	\$749.00 to \$963.00
Additional Fees for Caesarean Section	\$1,401.70 to \$2,247.00
Elective Caesarean Section	\$1,209.10 to \$1,926.00

An additional/separate anaesthetist fee will apply if patient proceeds to the Operating Theatre for an emergency caesarean or for any other procedures, e.g. examination under anesthesia, repair of episiotomy wound or evacuation of hematoma, etc. Office hours may vary depending on the doctor’s practice. Additional charges may apply when doctors are called back for consultation after office hours.

PLEASE NOTE

1.

The above estimated fee range for epidural analgesia in labour and elective caesarean section are at best estimates only. Final fees charged by your doctors may vary depending on the medical conditions of the patient’s final diagnoses, treatment and/or procedures received including the actual length of stay. A change in the treatment plan may alter the above estimated doctors’ fees.

2.

On the day of your discharge, your doctors will advise the hospital to collect their professional fees on their behalf. The hospital will incorporate your doctors’ fees into the hospital bills and it must be paid before you leave the hospital.

3.

Where possible, the patient will be informed of the estimated charges; otherwise, the family members or persons accompanying the patient shall be informed on the patients’ behalf.

4.

Information on generic medications is available in the hospital. Please kindly contact your pharmacist.

5.

The estimates are inclusive of GST.
